NHS Spirit

Energy jewelry for body & soul

How it works

- Identical functionality to NHS 2.0 and NHS „to go“ 3.0, which has been tried and tested a thousand times over.
- Development advancements have been based on a particular organ accumulator.
- An energetic torus field is formed with a central cylinder of about 10 meters and about 8 meters radius. (394 inches by 315 inches).
- All earth grids are strengthened and synchronized by resonance (radiesthetic conjecture).
- Synchronization with natural oscillation. This strengthens the human energy torus and balances the energy of the human body.
- Hundreds of positive testimonials.

Application

- The NHS Spirit is one of a kind energy jewelry for people of all ages. It can be worn around the neck with the supplied necklace cord or on a keychain.
- Also suitable for animals. Attach to the collar for dogs and cats or to the halter for horses.
- Important: Do not shower or bathe with the NHS Spirit and do not immerse in water, as individual parts could come off.
- The energy field is perceived differently from person to person. If it is too intense, please wear the NHS Spirit for an hour at a time only.
- Recommendation: it is best to take it off at night.
